

Mohamed Elshahat Ibrahim

Full Stack Developer (Node.js / React.js)

Cairo, Egypt | Open to Relocation | +20 106 608 2415 | shahathamdy29@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using Node.js, Express.js, and React.js. Skilled in designing RESTful APIs, integrating MongoDB and SQL databases, and implementing authentication, authorization, and web security fundamentals. AWS Certified Cloud Practitioner with practical, team-based full stack development experience gained through the Digilians (Digital Pioneers Initiative) program, including a graduation project spanning both frontend and backend development.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, HTML5, CSS3, C++, React.js, Angular, Vite, Tailwind CSS, Bootstrap, Axios

Backend & Databases: Node.js, Express.js, RESTful APIs, WebSockets, Socket.IO, MongoDB, Mongoose, MySQL, PostgreSQL

Authentication & Security: JWT, RBAC, OWASP Top 10, XSS, SQL Injection, IDOR, CSRF, Secure API Practices

Cloud, DevOps & Automation: AWS, Docker, Kubernetes, Linux, CI/CD, n8n, Cron Jobs

Payments & Tools: Stripe, Git, GitHub, Postman, VS Code, System Design, Unit Testing, Agile

PROFESSIONAL TRAINING

Digital Pioneers Initiative (Digilians) — Software Development Trainee, NTI

Dec 2025 – Sep 2026

9-month diploma in AI-Powered Software Development covering full stack web development, DevOps, and web security.

- Completed practical, team-based software development training covering the full web development lifecycle, from planning through deployment.
- Built full stack features and RESTful APIs using Node.js, Express.js, React.js, and MongoDB as part of hands-on project work.
- Gained working knowledge of Docker, Kubernetes, Linux, CI/CD pipelines, and cloud/AWS fundamentals.
- Applied secure coding practices based on the OWASP Top 10 across project work.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Web Developer | Egypt

Jan 2024 – Present

- Developed full stack web applications on a project basis using Node.js, Express.js, and React.js.
- Designed and implemented RESTful APIs for authentication, payments, and data management.
- Integrated MongoDB and MySQL databases with secure, optimized queries.
- Collaborated directly with clients to deliver customized, scalable web solutions.

PROJECTS

Kemet Gate — Interactive Digital Tourism Platform | [GitHub](#)

Dec 2025 – Aug 2026

Graduation Project (Team) | Digilians / Digital Pioneers Initiative — full stack platform for exploring Egyptian tourist destinations, trips, and services.

- Worked as Full Stack Developer across frontend (React.js, Vite, Tailwind CSS, Axios) and backend (Node.js, Express.js, MongoDB, Mongoose), integrating the frontend with backend REST APIs.
- Built JWT authentication with refresh tokens and role-based authorization for User, Company, Admin, and Regional Admin roles.
- Developed a complete booking system covering tour selection, booking dates, guest counts, and seat/availability management.
- Integrated Stripe payments (Payment Intents, Elements, webhooks) with server-side verification, and built a secure digital ticketing system with HMAC-SHA256 signed, tamper-detecting QR codes.
- Implemented real-time notifications with Socket.IO and persistent MongoDB storage across system roles, plus a company/admin approval workflow for publishing tours.

HR & Payroll Management System | [GitHub](#)

Jan 2026 – Present

- Developed RESTful APIs with Node.js and Express.js, with JWT authentication and role-based access control (RBAC).
- Implemented core business logic including payroll calculations and multi-level approval workflows.
- Built a responsive React.js frontend with dashboards, data charts, and real-time notifications.

Shoperly — Full-Stack E-Commerce Platform

Jan 2026 – Mar 2026

- Built dynamic user interfaces with React.js, integrated with RESTful APIs via Node.js and Express.js.
- Implemented authentication, product catalog, cart system, and order management, plus search & filtering, reviews/ratings, and wishlist features.
- Designed an admin dashboard for managing products, users, and orders.

Topico — E-Commerce & Community Platform

Jul 2024 – Dec 2024

- Built the complete frontend using vanilla JavaScript, focused on responsive design and UI/UX quality, consuming backend REST APIs.
- Developed dynamic topic browsing, post interaction, and user engagement features on the client side.

Diabetes Management App (Graduation Project)

Jan 2024 – May 2024

- Led backend development using Node.js and Express.js; built RESTful APIs for patient data and monitoring.
- Implemented a machine learning module for patient health predictions and trend analysis.

CERTIFICATIONS

AWS Certified Cloud Practitioner — Issued: July 2026 | Expires: July 2029

AWS Developer Associate (DVA-C02) — Training / Exam Preparation (not yet certified)

EDUCATION

B.Sc. in Computer Science, Faculty of Computers and Information, Zagazig University

Sep 2020 – Jun 2024

Languages: Arabic (Native), English (Very Good — Written & Spoken)
