Mohamed Elshahat Ibrahim

Full Stack Developer (Node.js / React.js)

Cairo, Egypt | Open to Relocation | +20 106 608 2415 | shahathamdy29@gmail.com | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer specializing in **Node.js, Express.js, React.js, and MongoDB**, building secure, scalable web applications and RESTful APIs. Experienced in **JWT/RBAC, real-time systems, payments, and business logic**, with hands-on experience across team, freelance, and professional software projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, React.js, Angular, Vite, Tailwind CSS, Bootstrap, Axios
Backend & Databases: Node.js, Express.js, RESTful APIs, WebSockets, Socket.IO, MongoDB, Mongoose, MySQL, PostgreSQL
Authentication & Security: JWT, RBAC, OWASP Top 10, XSS, SQL Injection, IDOR, CSRF, Secure API Practices
Cloud, DevOps & Automation: AWS, Docker, Kubernetes, Linux, CI/CD, n8n, Cron Jobs
Payments & Tools: Stripe, Git, GitHub, Postman, VS Code, System Design, Unit Testing, Agile

PROFESSIONAL EXPERIENCE

VGN — Full Stack Developer Intern Sep 2026 – Present

- Currently gaining hands-on professional experience in full-stack web development within a software development environment.

Freelance Full Stack Web Developer | Egypt Jan 2024 – Present

- Develop full stack web applications on a project basis using **Node.js, Express.js, and React.js**.
- Design and implement **RESTful APIs** for authentication, payments, and data management.
- Integrate **MongoDB and MySQL** databases with secure, optimized queries.
- Collaborate directly with clients to deliver customized, scalable web solutions.

PROJECTS

Kemet Gate — Interactive Digital Tourism Platform | GitHub Dec 2025 – Aug 2026

Graduation Project (Team) | Digilians / Digital Pioneers Initiative

- Built a full stack platform for exploring Egyptian tourist destinations, trips, and services using **React.js, Vite, Tailwind CSS, Axios, Node.js, Express.js, MongoDB, and Mongoose**, integrating the frontend with backend REST APIs.
- Implemented **JWT authentication with refresh tokens** and **role-based authorization** for User, Company, Admin, and Regional Admin roles.
- Developed a complete **booking system** (tour selection, dates, guest counts, seat availability) and a company/admin **approval workflow** for publishing tours.
- Integrated **Stripe payments** (Payment Intents, Elements, webhooks) with server-side verification, and built secure digital ticketing with **HMAC-SHA256 signed, tamper-detecting QR codes**.
- Implemented **real-time notifications with Socket.IO** and persistent MongoDB storage across all system roles.

HR & Payroll Management System | GitHub Jan 2026 – Present

- Built an enterprise-style HRM platform using **Node.js, Express.js, MongoDB, React.js, and Socket.IO**, with JWT authentication and role-based access control.
- Implemented **attendance, leave management, payroll, performance evaluation, anomaly detection, smart recommendations, and real-time notifications**.
- Developed an **HR Smart Assistant** with 16 validated tools for employee, attendance, leave, payroll, performance, anomaly, and recommendation insights.
- Applied secure service-layer architecture, input validation, audit logging, targeted database indexing, and automated testing with **105/105 passing assertions**.

Shopery — Full-Stack E-Commerce Web Application | GitHub Jan 2026 – Mar 2026

- Developed a full-stack e-commerce platform using **React.js, Node.js, Express.js, and MongoDB**, implementing **JWT authentication, RBAC, REST APIs, product/category CRUD, cart, wishlist, checkout, coupons, and order management**.
- Built an admin dashboard and enforced **server-side price validation** to protect checkout and order integrity.

Frío Restaurant & Cafe — Full-Stack Restaurant & Online Ordering Platform | GitHub Freelance

- Built a production-ready full-stack restaurant and online ordering platform using **Next.js, React, TypeScript, Tailwind CSS, Prisma, and Zod**.
- Implemented **menu browsing, persistent cart, checkout, delivery/takeaway flows, order tracking, WhatsApp order dispatch, offers, and content management**.
- Applied **server-side validation, Prisma data access, SSR-safe client state persistence, and structured SEO metadata**.

Topico — E-Commerce & Community Platform | GitHub Jul 2024 – Dec 2024

- Built the complete responsive frontend in **vanilla JavaScript**, consuming backend REST APIs and delivering dynamic topic browsing, post interaction, and user engagement features.

Diabetes Management App (Graduation Project) | GitHub Jan 2024 – May 2024

- Led backend development with **Node.js and Express.js**, building RESTful APIs for patient data and monitoring.
- Implemented a machine learning module supporting patient health predictions and trend analysis.

Al-Quds Pharmacy — Pharmacy Website | GitHub Freelance

- Developed a responsive pharmacy website focused on clean UI, product/service presentation, and user-friendly navigation.

PROFESSIONAL TRAINING

Digital Pioneers Initiative (Digilians) — Software Development Trainee, NTI Dec 2025 – Sep 2026

9-month diploma in AI-Powered Software Development covering full stack web development, DevOps, and web security.

- Completed team-based software development training across the full web development lifecycle, from planning through deployment.
- Built full stack features and RESTful APIs using Node.js, Express.js, React.js, and MongoDB.
- Gained working knowledge of Docker, Kubernetes, Linux, CI/CD, and AWS fundamentals; applied OWASP Top 10 secure coding practices.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Issued: July 2026 | Expires: July 2029
- **AWS Developer Associate (DVA-C02)** — Training / Exam Preparation (not yet certified)

EDUCATION

B.Sc. in Computer Science, Faculty of Computers and Information, Zagazig University Sep 2020 – Jun 2024

LANGUAGES

Arabic: Native

English: Very Good — Written & Spoken
